

Testing of Lifesaving equipment

– lifejackets, immersion suits, buoyancy aids and safety lines

FORCE Technology has many years of experience with lifejackets, immersion suits, lights and other rescue equipment for sea use. We test the materials and finished products in close contact with the customer and offer FORCE Certification A/S NB 0200 as Notified Body when certifying.

Accredited testing ensures a high quality in the testing performed and reliable results.

- FORCE Technology holds an accreditation by DANAK to test personal protective equipment according to EN ISO 12402 (replaces EN 393, EN 394, EN 395 & EN 396), EN ISO 15027, EN ISO 12401, marine equipment according to MSC 81(70) amended by MSC 200(80), MSC 226(82), MSC 323(89) and is recognized by USCG for testing of lifejacket lights, lifejackets and immersion suits.
- We also have experience with life rafts (MSC 81(70)), pilot ladders (IMO Res 1045(27)), high velocity valves, release hooks, hydrostatic releases, embarkation ladders, deck safety lines and harnesses.
