

About FORCE Technology

FORCE Technology

We transform highly specialised technological knowledge into innovative, practical and value-added solutions for all industries and public sector.

FORCE Technology is an international technology consultancy and service company. Based in Scandinavia, FORCE Technology makes a global footprint. With a strong infrastructure of facilities and skill sets, we advice and service our clients globally in the energy and environment industries, the electronics industry, the lifescience industry, the food industry, the oil and gas industry, and in the maritime industry, among others.

We have branches in Denmark, Norway, Sweden, Singapore, China, and the United Arab Emirates.

We are government approved and dedicated to develop and use technologies and new knowledge for the benefit of companies and the society as a whole.
