

WHO - Unicef

– Testing of Syringes and safety boxes approved by WHO and Unicef.

We will most likely be able to help you if you have a specific test need, no matter the test. If we are not able to test the device/structure ourselves we are likely to know who can help us.

Examples:

- Load test of balconies
- Testing of flower containers
- Breaking strength of train rails
- Wreck assessment
- Testing of ladders, of stairs
- Testing of bicycle locks
- Criminal technical investigations
- Survey and valuations
